

6. INNOVAZIONI PERFORMANTI PER MONOBLOCCO

Scelta degli accessori che permettono
maggiori risultati sull'isolamento termico - acustico

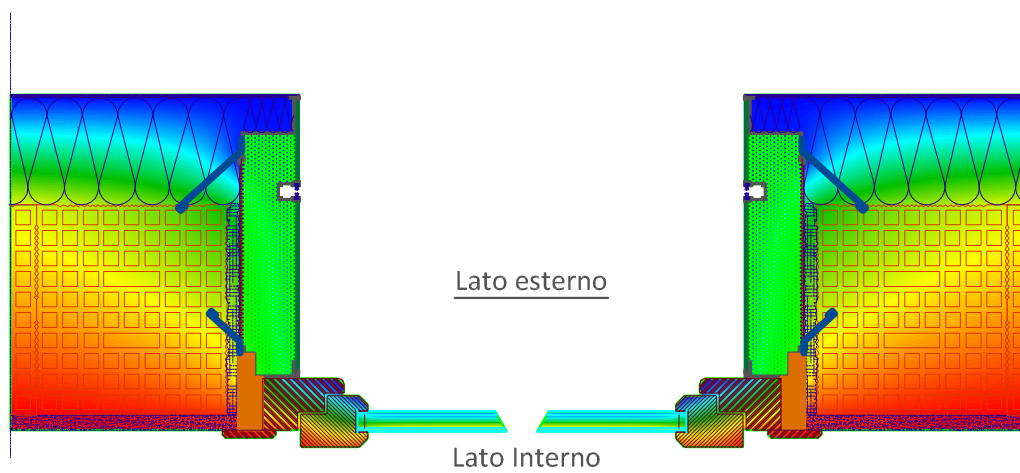

Spalla Thermik 80

CON FALSO TELAIO A TAGLIO TERMICO A FILO MURO INTERNO

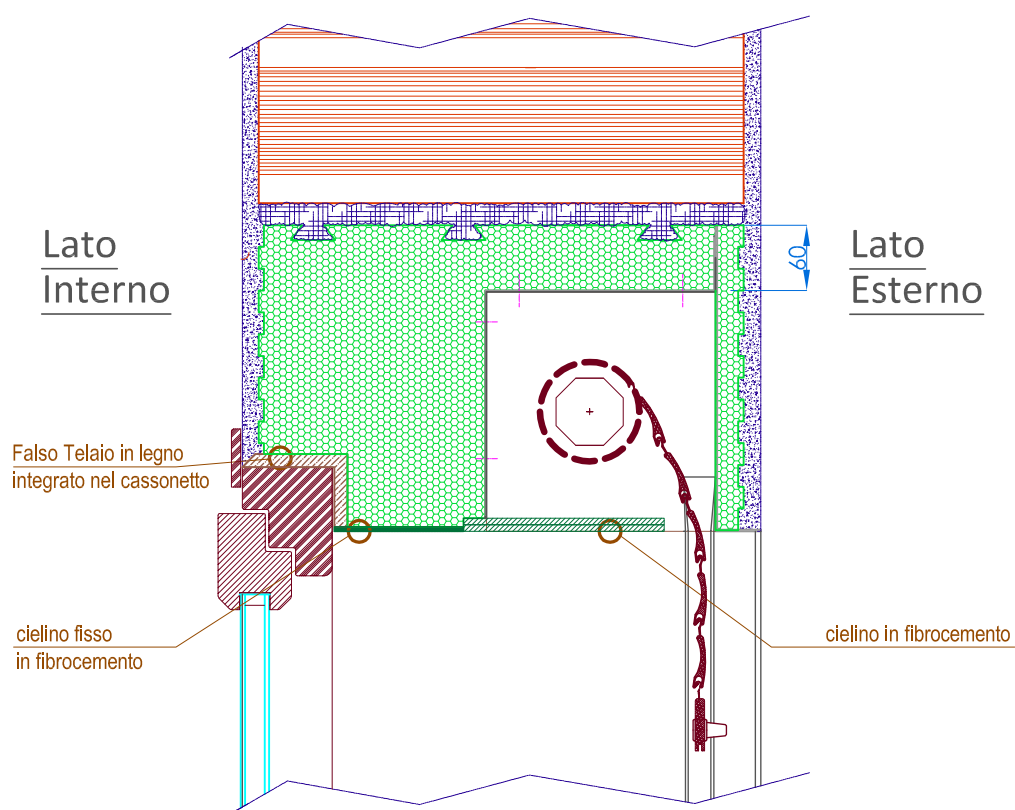

ANALISI TERMICA (in collaborazione con esperto CasaClima)

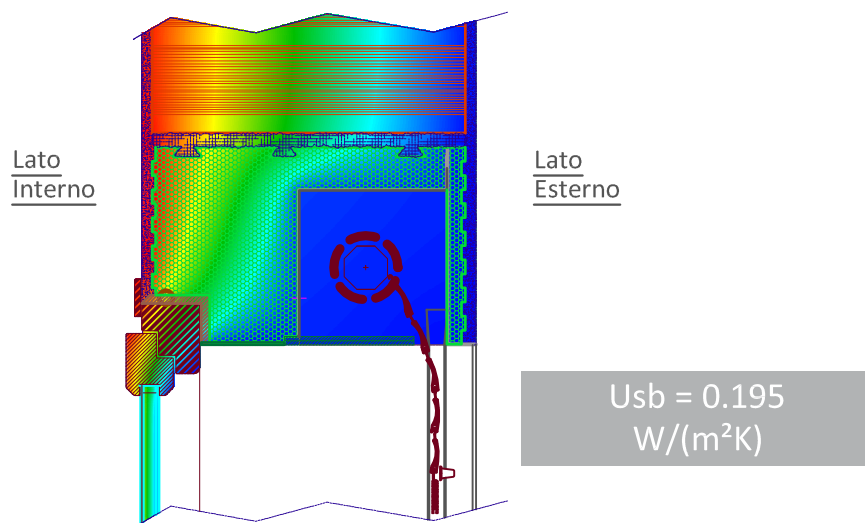

$$\psi = 0.120 \text{ W/(mK)}$$

Cassonetto KLIMA ad alte prestazioni

CON SERRAMENTO A FILO MURO INTERNO

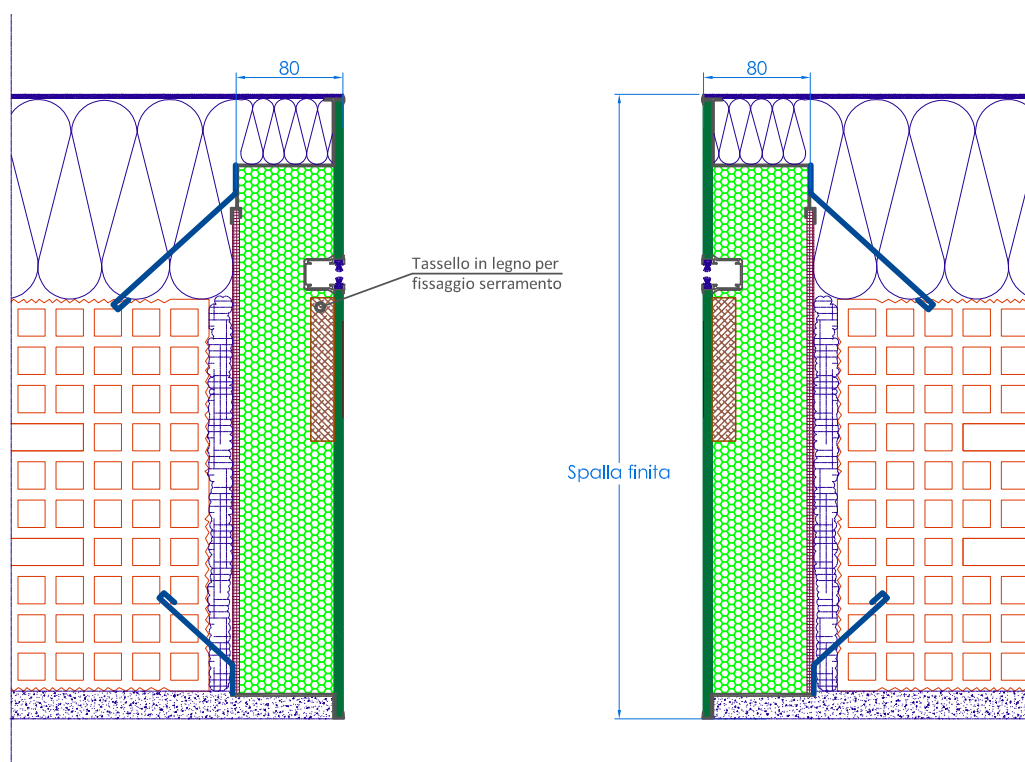

ANALISI TERMICA (in collaborazione con esperto CasaClima)

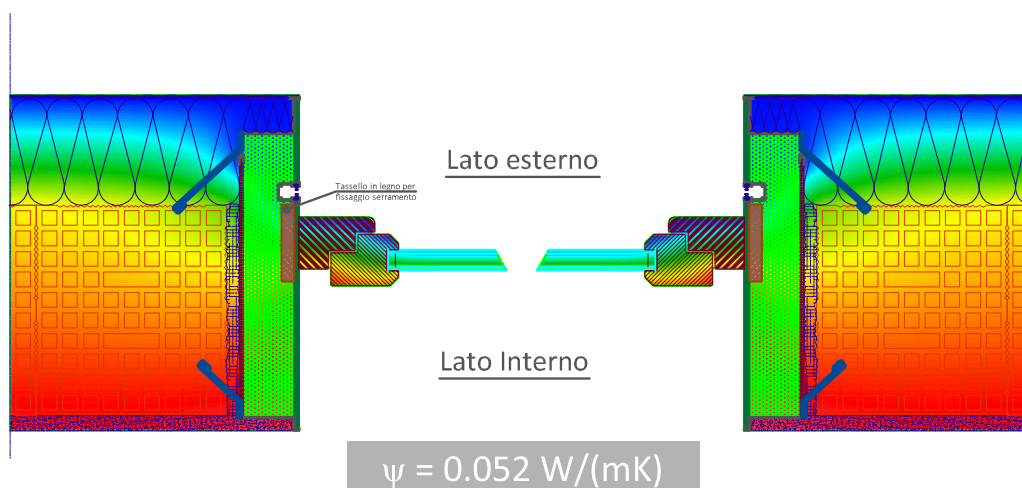

Spalla Thermik 80

PREDISPOSTA PER SERRAMENTO IN MAZZETTA

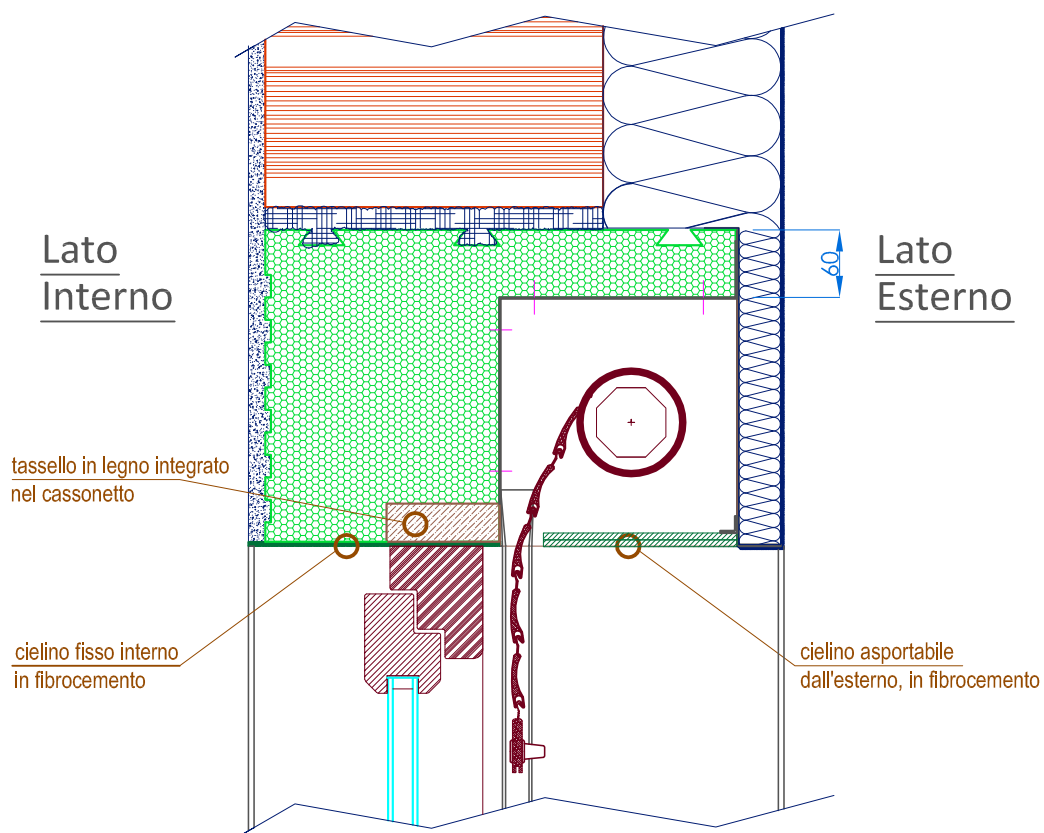

ANALISI TERMICA (in collaborazione con esperto CasaClima)

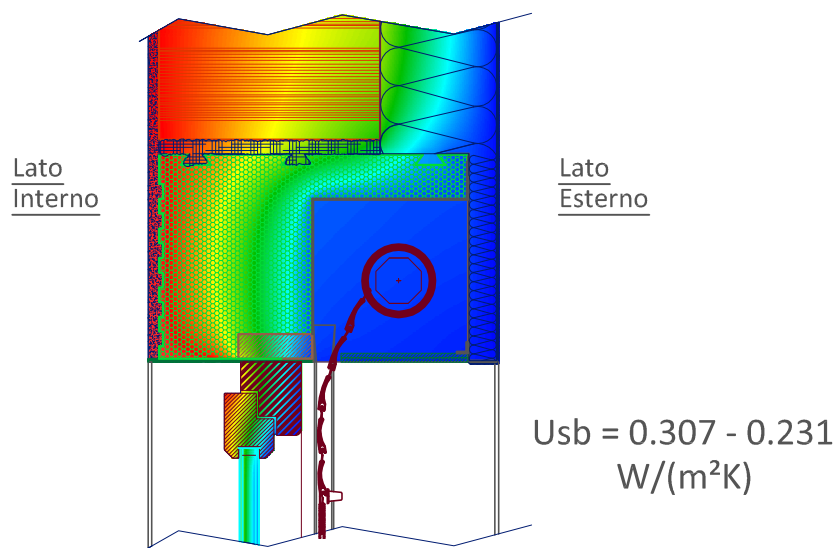

Cassonetto KLIMA ad alte prestazioni

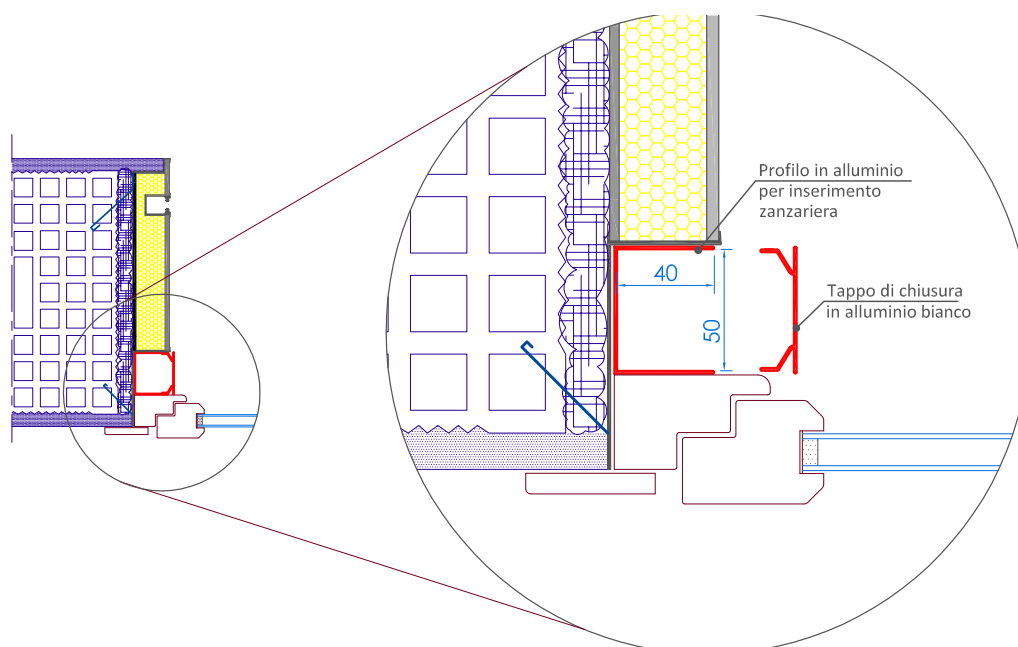

CON SERRAMENTO IN MAZZETTA

ANALISI TERMICA (in collaborazione con esperto CasaClima)

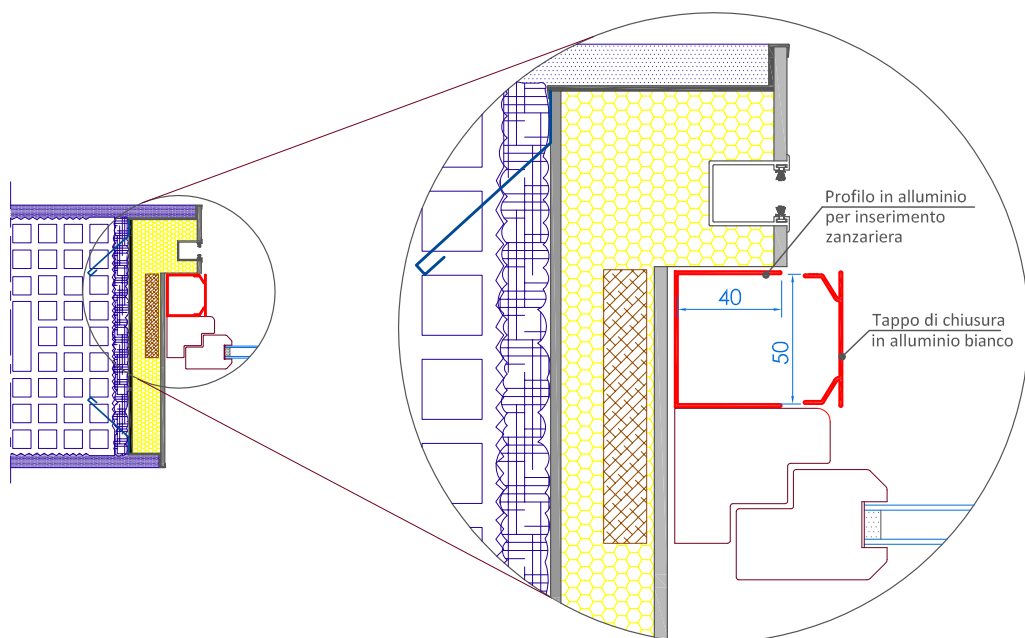

Predisposizione zanzariera con tappo di chiusura per serramenti a filo muro interno

PARTICOLARE

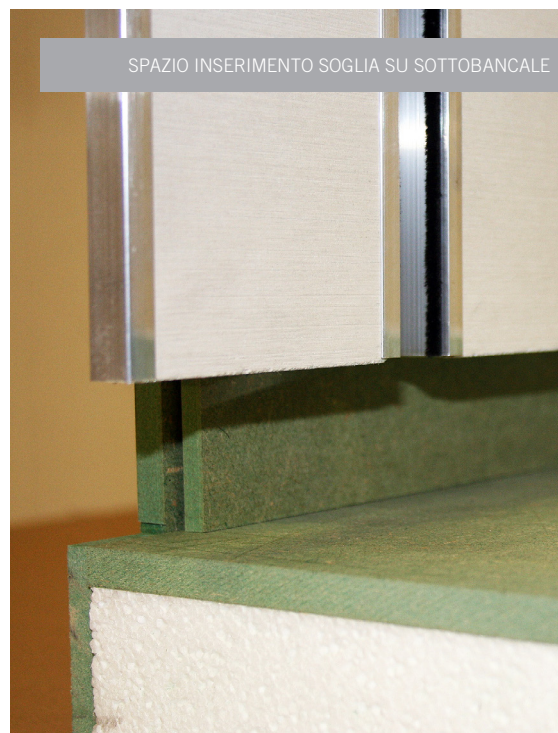

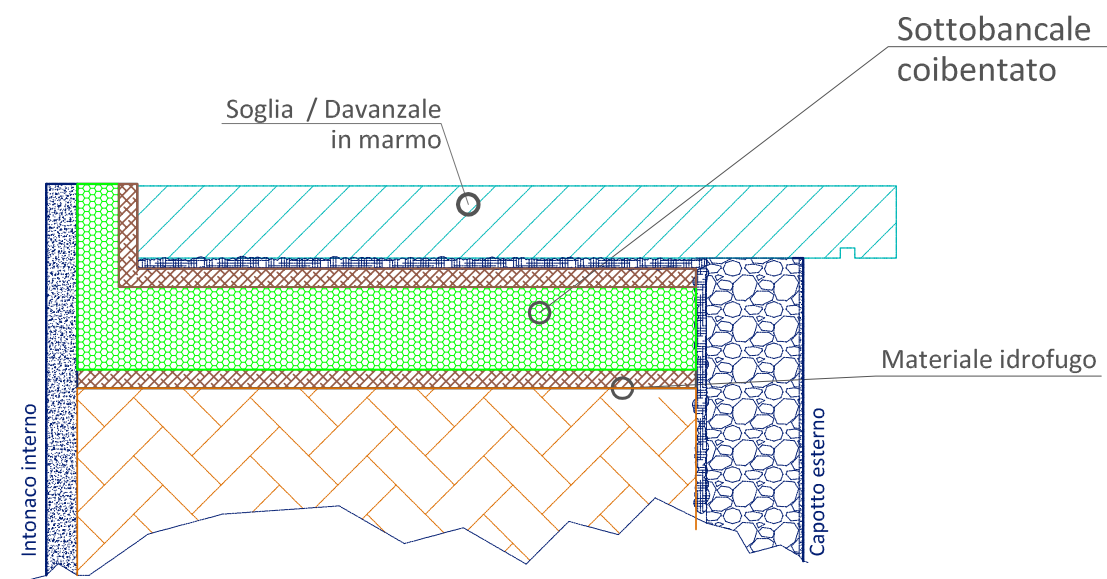

Predisposizione zanzariera con tappo per serramenti a metà muro

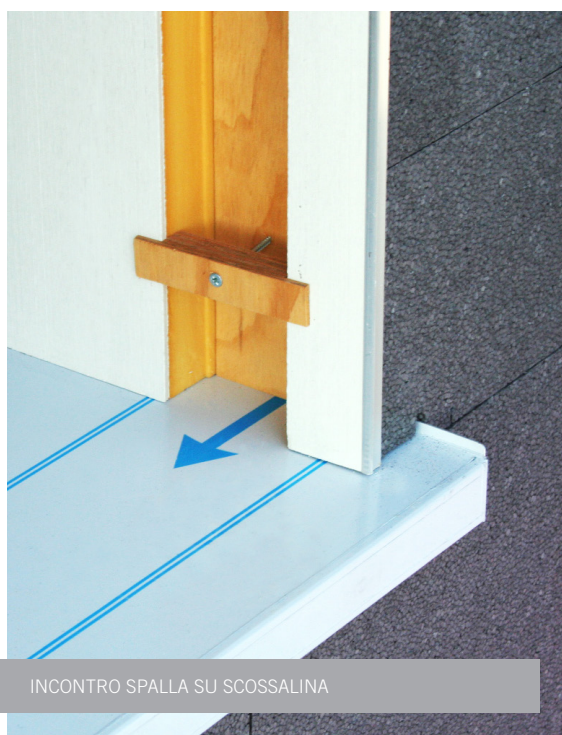

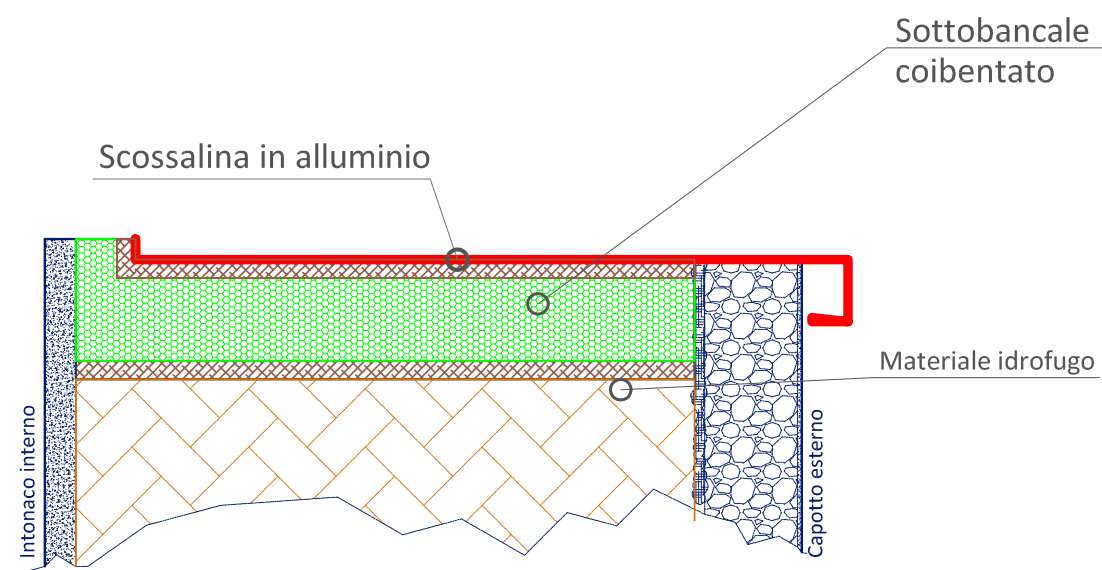

PARTICOLARE

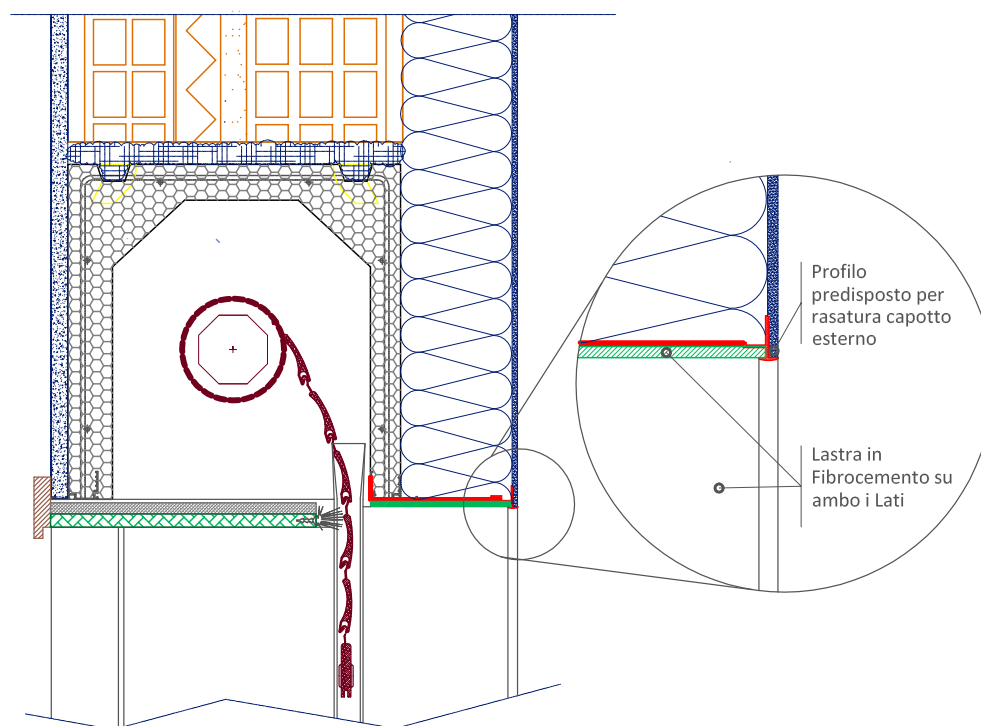

Sottobancale coibentato ad alte prestazioni per soglie / davanzali

Sottobancale coibentato ad alte prestazioni con scossalina in metallo

Supporto di compensazione al cappotto esterno con fibrocemento a vista

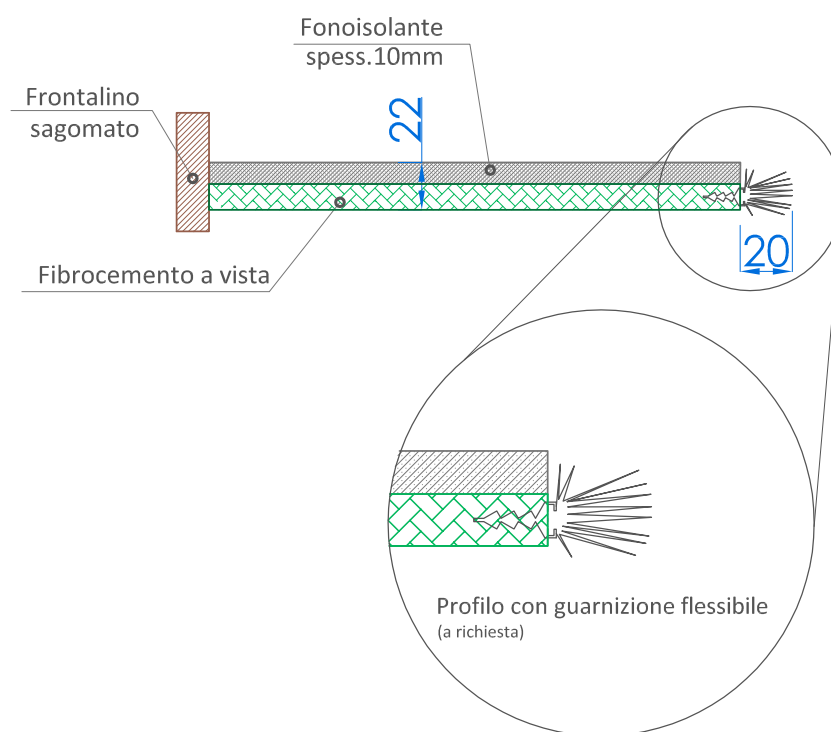

PARTICOLARE PARASPIGOLO

PARTICOLARE FINITURA IN FIBROCEMENTO A VISTA

Cielino coibentato con guarnizione flessibile

PARTICOLARE CIELINO
